**ATLANTIC CITY**— Casinos reported \$468.3 million in casino win in August, a 0.7 percent increase over the same month a year ago.

Results reported to the New Jersey Casino Control Commission Wednesday show that the 11 casinos won \$323.4 million at the slot machines and another \$145 million at table games in August. Slot revenue was virtually unchanged while table game revenues increased by 2.3 percent. Copies of individual casino tax returns with detailed information on gaming revenues are available on the Commission web site at <http://www.njccc.gov/casinos/financia/mthrev/> .

Casinos paid \$37.5 million in taxes on their gross revenues in August. That money, 8 percent of gross revenue, goes into the Casino Revenue Fund which pays for programs that benefit qualifying senior citizens and people with disabilities. In addition, the casinos incurred another \$5.9 million in reinvestment obligations. They are required to reinvest 1.25 percent of gross revenues in projects approved by the Casino Reinvestment Development Authority.

For the first eight months of the year, casinos won \$3.2 billion, down 5.2 percent from the same period in 2007. Revenue from slot machines is down 6.8 percent and revenue from table games is down 1.3 percent for the eight months.

Win, or casino revenue, is the net amount of money won by casinos. It is not profit.

*(Detailed data on revenues from each individual casino can be found at the Commission's website <http://www.njccc.gov/casinos/financia/mthrev/> . For more information contact the Office of Communications.)*
